

The University of Colorado Anschutz is now accepting applications for NIH-funded T32 postdoctoral fellowship positions beginning July 2026.

This postdoctoral fellowship is based at a leading academic medical center and is designed for MDs and PhDs pursuing academic careers in nutrition-related research. We especially encourage physician applicants who are interested in integrating clinical expertise with research training to address critical questions in nutrition science and health.

Trainees will develop the skills to become independent investigators in a collaborative, multidisciplinary environment. Our mentors span diverse areas including:

- Basic and human laboratory-based research
- Behavioral sciences
- Epidemiology and health disparities
- Multi-omics (e.g., epigenetics, gut microbiome, metabolomics, foodomics)
- Implementation science across the lifespan

Trainee Citizenship Requirements

- Only U.S. citizens, non-citizen nationals, and permanent U.S. residents may be appointed to a T32.

The University of Colorado (CU) is an Equal Opportunity Employer and complies with all applicable federal, state, and local laws governing non-discrimination in employment. We are committed to creating a workplace where all individuals are treated with respect and dignity, and we encourage individuals from all backgrounds to apply.
